

Lillian A. Burns, BS, MT, MPH, CIC
Greenwich Hospital, Greenwich, CT

Lillian A. Burns, BS, MT, MPH, CIC, is a clinical laboratory technologist, infection control practitioner, and health education specialist. She is currently the infection control coordinator at Greenwich Hospital in Greenwich, Connecticut. Ms. Burns' research activities focus on the management of infectious diseases and infection control practices to prevent the transmission of infection, and she has written extensively on these subjects for various medical publications. In addition to presenting abstracts on communicable diseases and surgical site infections, Ms. Burns has lectured on infection disease prevention.

Ms. Burns has held a number of positions at the Association for Professionals in Infection Control and Prevention, and is a member of the American Society of Microbiology and the Academy of Sciences. She served as president of the Greater New York Chapter of the Association for Professionals in Infection Control and Prevention. Ms. Burns earned a bachelor of science degree in biology from Long Island University in New York City, and was awarded a master's in public health from New York University.
